To whom it may concern,

I would like to make my voice heard in the Microsoft Antitrust case. I have been reading through many articles and essays concerning the proposed solution to the problems that Microsoft has been creating for an entire industry, and I am simply not impressed.

The proposed settlement is not sufficient to change the stranglehold Microsoft has in all of the markets it competes in (Operating Systems, Office software, Media formats, etc.). If you do not halt this now, it will only get worse for all of us.

Thank you for your time,
